WASHLINK

THE WASHLINK PHILOSOPHY

Washlink lives by a simple philosophy: we've done our job if we've made your job easier. We strive toward this goal daily by bringing you the world's best in automation technology and techniques, and pioneering methods when a new unfilled need is found. Located in Morgan Hill, California just south of the Silicon Valley, we're in tune with the latest automation technologies. With over 75 years in the car wash industry we've learned that when all else fails, keeping the doors open and car washing is priority number one. We own car washes; we understand that bulletproof products, robust Point-of-Sale and dozens of other car wash automation solutions are necessary for you to be a "Control Freak" just like us.

THE WASHLINK EXPERIENCE

The Washlink team has over 75 years of car wash experience behind them. With that experience, we can offer the car wash industry's best car wash equipment controllers, car wash POS systems, motor control centers, variable frequency drives, unattended pay stations, central vacuum controls, and much more innovative car wash control systems.

PASSIONATE ABOUT AUTOMATION

Right from Washlink's inception, our strategy was to develop smart relationships with companies and distributors that have the same values as us and are passionate about car washing automation. We've partnered with some of the brightest and most innovative companies and distributors within the car wash industry.

To say that Washlink and these companies and distributors have synergy is an understatement. With Washlink, Motor City Wash Works, and our distributors working together, we feel it won't take you long to see we're not your typical car wash automation and Point-of-Sale company.

SALESLINK POINT OF SALE & MARKETING SYSTEMS

WINDOWS SERVER WITH MICROSOFT SQL DATA BASE

SALESLINK ALL PAY PAY STATIONS

Washlink Saleslink "All Pay" pay stations provide a complete unattended pay station solution.
These extremely robust and feature rich "All Pay" pay stations are enhanced by the integration with Washlink Saleslink POS software that adds prepaid wash cards and cash cards with no per swipe fees. Recurring billing for unlimited programs, EMV credit card acceptance, RFID and LPR, and multi-site replication are also integrated.

SALESLINK DISPLAYER

Washlink Saleslink Displayer brings your on-site marketing to a new level. Now you can create custom HD messages and graphics based on your customers' purchases. Designed to work inside the car wash tunnel, a single Displayer will replace multiple signs and upgrade your image at the same time. Promotional, informational, sales, and safety messages can be combined to provide a seamless, professional presentation to your customer.

NOTES

WASHLINK

WASH SOLUTIONS • POINT OF SALE CONTROLLERS • MOTOR CONTROLLERS

Washlink lives by a simple philosophy: we've done our job if we've made your job easier. We strive toward this goal daily by bringing you the world's best in automation technology and techniques, and by pioneering methods when a new unfilled need is found. Our solutions are unequaled in the industry! But don't just take our word for it. We invite you to speak with one of our clients…or better yet call and talk to us! We invite you to come and visit our headquarters located in northern California and see your high tech operation. We feel it won't take you long to realize we're not your typical car wash controls or point of sale (POS) vendor.

We're Washlink and we look forward to showing you a better way!
